### What is the difference between a Life Coach and a Master Life Coach?

- A Life Coach can coach one or two clients at once and only in a specific niche.
- A Master Life Coach can coach an unlimited number of clients such as support groups, families or a whole corporation. A Master Life Coach can hold events such as seminars or motivational events and can manoeuvre between niches which the Master Life Coach has knowledge in.

### What can I do after the training?

Upon completion of the training you will have all the necessary skills to manage your life and help others as a master life coach and, should you wish, you can study Hypnotherapy if you would like to work as a therapist and you will be able to more effectively apply your existing knowledge, and you may as well **apply for a diploma in counselling here at The MindTech Institute**. You can contact us for more information about the diploma of counselling which is an academic and internationally accredited and recognized.

The areas of application are vast, even if you do not want to get into therapy and life coaching (helping other than yourself), but would like to focus on management positions, development, business, leadership, and other corporate positions you may also apply for an advanced diploma in leadership and management here at The MindTech Institute. You can contact us for more information.

**Duration of training:** **Online Training:** must be completed within 120 days upon enrolling.  
**In-Class (Workshop):** 16 Days.
